Company in Brief

MACHINERY & EQUIPMENT:

Part of White Lion competitive advantage comes from adopting efficient equipment management system, which looks mainly for minimizing downtime. This successful system is based on:

- ❖ Developments in direction of add - on- reliable equipment, and purchasing the latest technology.
- ❖ Short-List procurement policy of internationally recognized manufacturers.
- ❖ Economic replacement policy, which ensures operating fleet within its profitable life time.
- ❖ Organization structure comprises a rental department to satisfy and fulfill projects unique needs and urgent cases, in order to avoid any delays.
- ❖ Recruitment of competent operators and technicians.
- ❖ Continuous upgrading training program.

HUMAN RESOURCES:

We consider that our greatest strength is that qualifications and expertise of our work force, when linked together with a singular shared vision. It is a vision that puts our client's needs first, honors the talent dedication of individuals and emphasizes a team oriented approach to problem solving.

With our vision intact we are confident that (WHITE LION) will continue to develop and acquire the manpower that is required to meet the evolving needs of our partners and clients.

VISION & MISSION:

Vision:

We aim to be amongst the top construction organizations working in Qatar and Gulf Countries Within the next five years.

Mission:

We are committed to provide high standard services and products that are fit for purpose.

We aim at satisfying our customers by providing best value.

We believe that our development is strongly related to the development of our human resources through training.

We are committed to quality and preserving the environment.

We promote an environment of competitiveness amongst our employees to promote their sense of leadership and team working.

No	Related to Section / Chapter / etc.	Comments (PMC)	Originator (Dept. & Initials)	Contractor's Response to PMC Comments	Review Status PMC
1.	General	<p>The PMC notes that the subcontractor (paint applicator) is not ISO 9001: 2015 certified and therefore, with reference to clause 4.8 of the General Specification of contract, the contractor must confirm the following:</p> <ol style="list-style-type: none"> The subcontractor shall fully adopt and comply with the contractor's ISO certified system; That this adoption and compliance with the contractor's ISO certified system shall be audited and verified by the contractor; The contractor is hereby reminded that the Engineer reserves the right to disapprove the subcontractor, if the latter is found to have performed below expectation in 	PMC-QA TS		B

2.	Technical Representative	Manufacture qualified technical representative, not a sales representative, shall inspect first-day work and periodically inspect work of this scope of work to ensure applications is proceeding in accordance with the manufacturer's recommendations and warranty recommendations. The representative shall submit a written report of each visit indicating observations, finishes and conclusions of inceptions.	PMC-QA TS		Note
3.	Testing Agency	The Contractor shall engage the services of an independent testing agency to sample the paint material being used. Samples of material delivered to the project shall be taken, identified, sealed, and certified in the presence of the Engineer's representative.	PMC-QA TS		Note
4.	Source Limitation	The paint applicator shall obtain paints, block fillers and primers for each coating system from the same approved manufacturer as the finish coats.	PMC-QA TS		Note
5.	Benchmark Samples (Mock-ups)	The contractor shall ensure that the paint applicator provides a full-coat benchmark finish sample for each type of coating and substrate required. Furthermore, the paint applicator shall comply with the procedures specified in PDCA P5 and duplicate finish of approved sample Submittals.	PMC-QA TS		Note
6.	Operational document	Operational document such as shop drawing, method statement, ITP & RA, QA/QC Plan for the internal and external painting work shall be submitted separately for PMC review and comment. Contractor to confirm.	PMC-QA TS		B
7.	MAS	The review of this PQ is subject to the successful review of the material submittals for this scope of work if selected by the Employer. The contractor to ensure that the MAS is reviewed and approved by the Engineer/Consultant prior to commencement of work on-site. GET to conform.	PMC-QA TS		B
8.	General	The contractor will be solely liable for all the obligations under the contract and responsible for all the acts, defaults of the sub-contractor.	PMC-QA TS		Note
9.	General	Approval is subject to Performance at site and complying with project's schedule.	PMC-QA KM		B
10.	Commercial Registration	Commercial registration shall be renewed.	PMC-QA KM		B

Note that when additional review rounds are performed, the revision is updated in the Submittal Reference and the existing comments / responses remain with follow up comments / responses inserted within the same row as a new paragraph in order to keep a full review history summarised within the same form. The PMC is also allowed to make comments in the form of a "note", which is a remark that does not require amendment to the submittal (hence counts as a status A). When requesting 'acknowledgement from the contractor this receives a status B and turns status A when the Contractor acknowledgement is given.

Acceptance of this submittal does not alter in any way whatsoever the Contractor's contractual or common obligations and responsibilities. Where the submittal is any way a variance with the specification or contract drawings, such variations must be
